

You Need a CQI Program

Mistakes happen. Risky processes become normalized and your operations can shift slightly with staffing changes, new products, and new procedures.

The APMS Patient Safety Organization (PSO) provides **Pharmacy Quality Commitment+ (PQC+) Compounding**, a confidential, highly secure, continuous quality improvement program. Track and analyze how, when, and where the risk in your workflow occurs so you can reduce Rx corrections and operational costs.

Our program includes:

1 Pharmacy Quality Commitment+

- A web-based reporting portal to collect patient safety events
- Tools to chart, graph, and analyze data
- Expert advice, tips, and safe practices
- Resources to help you meet accreditation and quality improvement requirements
- Support to build a just culture of safety
- QA Continuing Education and training opportunities

2 APMS PSO Services

Patient Safety Organizations (PSOs) provide a protected space for members to conduct patient safety work. When you partner with our PSO for your Quality Improvement activities, the collection of quality assurance data and patient safety work is in a protected environment.

3 Customer Service

We are passionate about medication safety in community pharmacy and are here to walk you through the entire process. Our customer service team has years of experience in pharmacy and is excited to help.
